At Pomeroy, we help our clients build and support the critical technology that powers their businesses. From endpoint devices and networks to applications in the Cloud, we manage the entire technology lifecycle.

Whether your workers are at the office, at a store or branch, at home, or on the go, we handle every assessment, every configuration, every installation, every service outcome, and every resource - letting you stay focused on your business.

Geographic Footprint

Our 3000+ employees are spread across three continents, with executive briefing centers in New York, NY, and Toronto, ON; solutions centers in Hebron, KY, Greenville, SC, and Woodbridge, ON; a retail solutions center in Greenville, SC, and global services delivery centers in India and the Philippines.

Industry focused. Outcome driven.

Pomeroy provides tailored IT solutions across industries like retail, finance, healthcare, manufacturing, and government. We deliver customized technology strategies to address unique challenges and drive growth, helping you achieve your goals.

Pomeroy delivers comprehensive technology lifecycle solutions, professional and managed services, and technical talent to help clients enhance productivity, enable better collaboration, and deliver seamless customer experiences.
